Importance: High
Sensitivity: Company Confidential

Interagency colleagues,

I am sharing the attached document on Universal Access to Energy, on which G20 Saudi Hosts seek feedback by May 29. Topics addressed include electrification, clean cooking, and financing. Note that I am concurrently compiling feedback from within DOE.

In order to effectively compile edits and comments, I am asking for you to revert no later than COB Wednesday, May 27. If that deadline proves problematic, please reach out. We may be able to find some wiggle room due to the technical difficulties on the Saudis' side with sending the document. Please be sure to make all comments/edits in track.

With thanks,

-Michael

Dear Colleagues,

Hope all going well at your side.

I was advised by the ESWG team that we are yet to receive your confirmation of the email below that was sent on May 16.

I am sending this message from my account and appreciate your confirmation in order to ensure that United States received the document on energy access.

Looking forward for your feedback so we will be able to consider input in a timely manner.

All the best,

Fareed ALASALY
ESWG Chairman
Ministry of Energy
Saudi Arabia G20 Presidency 2020

Importance: High
Sensitivity: Confidential

Dear Colleagues,

On behalf of G20 ESWG Chairs and in collaboration with SEforAll, attached is the draft version of the "G20 Forward-looking Options for Universal Access to Energy".

The document focuses on addressing energy access (electrification and clean cooking) challenges and gaps in highly impacted countries as indicated in the draft outline shared with you earlier in late-March.

We would very much appreciate your feedback on the content and forward-looking options presented. We would like to extend our gratitude to SEforALL and contributing relevant and competent international organizations and institutions for their extremely important input on one of the Saudi Presidency priorities that we all agreed to advance as an outcome during the 1st ESWG.

Should you have any substantial reflections or essential points to consider for the next iteration, please kindly share them with us no later than May 29, in track mode, to ensure that we can have the final version ready ahead of the second ESWG meeting.

We look forward to hearing from you and please confirm receipt of the email and the attachment.

Kind regards,
Energy Sustainability Working Group Team
Kingdom of Saudi Arabia G20 Presidency 2020
